

Description: Self contained high volume water pump with quiet-running gasoline engine and automatic centrifugal clutch. With electric starter and automatic speed limit during suction. Automatic control of output pressure. The illuminated multifunction panel provides intuitive control.

TECHNICAL DATA

SPECS

specifications	according to EN 14466
pump	FPN 10-1500-1 according to EN 1028
engine	gasoline, Volkswagen 3-cylinder / 4-stroke
clutch	centrifugal clutch
engine displacement	999 ccm
output	50 kW (68 HP) at 5400 rpm
cooling	closed cooling water circuit with radiator
operation	Z-control with FIRE-CAN
fuel tank	17 liters, gasoline (ROZ 95 or 91 Oct 86 or 91)
nominal output	1500 liters (330 gal) / min.
nominal pressure	10 bar / 145 psi
suction height	approx. 3 meters
max. output at 10 bar	1900 liters / min. (418 gal at 145 psi)
weight	188 kg (operational)
dimensions	1039 x 720 x 864 mm
